Operation Modules:

The operations to be done by each module.

Below image represents the basic view of Modules.

Pre Examination Module:

Before Examination conducting the entries given to each setup of module is known as Pre - Examination Module.

Again the Pre-Examination Module consists of three types of Modules like

- 1) Examination registration 2) time tables and seating 3) Revaluation registration
- 4) Student screen 5) room allotment

Masters:

For Pre Examination the basic entries will be done first in Masters i.e., all the examination setups (Marks setup, Fee setup) will be exists here. After entering all the setup entries it will converts in to the Transactions automatically.

Again the Masters consists of following operations like (below image).

Import Initial Database:

After entering all details in Course Master next step is to import Student details like

1) Import Students:

Here we enter the student's details of all branches in the form a Generated Excel File and then import the students details with that Excel file. (Below image)
