EVENT NAME: VARNAM

VARNAM

Fill up your despair with full of colors

 The event "VARNAM" is an exclusive event for the whole college on the behalf of CSI student body. This is a creative event on human color psychology, celebrated on the occasion of 'HOLI''.

 Every student took a part of it. Approximately 1100 students had actively participated. We were happy to say that not only students, but staff had also took a part for participation.150 teaching staff had participated.

Date:-17-Mar-2022.

Time:-10:30 AM-5:00 PM

Location:-IT department.

 This Event "VARNAM" is all about HUMAN COLOR PSYCHOLOGY.

In the past few years we had a tough phase of our lives due to covid situations. Every person has their own tough phase that maybe Financial problem, health issues and few other. We haven't celebrated holi past few years. It's first holi celebrating after covid.

The main theme of the event is "After covid every person had faced many situations that can't be handled. To overcome every situation with a positive attitude and a smile on our face."

We asked the students to choose a color of their favourite and dip in that color and print their hand on the a word of their choice.

Each color has its own significance .

RED- Red is often perceived as energizing and exciting. It can also impart feelings of power, passion, and desire. Red can also appear aggressive, perhaps because someone with a flush, red face is often angry.

PINK- Pink with calming effects, even in the most aggressive of people.

BLUE- Blue is perhaps the leader of the pack.One study found that blue lighting accelerates post-stress relaxation.

GREEN- Green is all around us in nature — think of all the grass and trees you see every day — so it can often feel comforting. It's generally seen as a positive color.

ORANGE-Mix between red and orange, both of which have strong emotions tied to them, orange can impart strong emotions as well.
